PROFILE

Software developer skilled in building scalable web and mobile applications with modern technologies. Passionate about delivering impactful solutions and contributing to dynamic teams through collaboration, creativity, and problem solving.

EDUCATION

Bachelor of Science in Information Technology, Software Engineering
Addis Ababa University, College of Technology and Built Environment (CTBE)
- Completed courses in Software Development, Data Structures & Algorithms, Databases, Web & Mobile Application Development, and Artificial Intelligence.
- Designed and implemented full stack projects applying modern technologies and best practices.
- Applied software engineering principles to plan, design, and deliver functional applications.

PROFESSIONAL EXPERIENCE

Full-Stack Developer
GumiSofts 🔗
- Developed full-stack applications using React, Django REST Framework, and Flutter for various client projects.
- Contributed to Bita Platform backend development, implementing RESTful APIs and database schemas.
- Collaborated in agile teams to deliver scalable mobile and web solutions with clean, maintainable code.
- Integrated third-party services and implemented authentication/authorization systems.

QA and Testing Intern
Infra Tech Software Services 🔗
- Performed software testing and quality assurance on multiple projects.
- Documented bugs and issues, collaborating with developers for resolution.
- Assisted in test case development and execution.

SKILLS

Web Development:
- Frontend: React, Next, Tailwind
- Backend: Node, Express.js, Django, .Net

Database MS:
- MySQL, Mongo, Postgres

Software Engineering:
- version control (Git, Github), Docker, CI/CD Integration

App Development:
- Flutter

Programming :
- Javascript,Java, Python, C#, Go

Architecture:
- Microservices, Caching and Message Brokers Strategies
